Step by step self-training membership program

The Get Found Now fixed-term membership is intended to help beginning or re-entry speakers position themselves so they can Get Found Now, create a full schedule, build a successful & lucrative business and become the 'Go To' expert in your subject matter.

This fixed-term Get Found Now membership was created for those who are unable to attend a live workshop. You will receive four lessons, one per month consisting of 30-50 pages in length of pure learning content plus action plans.

The lessons cover easy to follow steps to creating a successful and lucrative speaking business. There are vital steps involved in positioning yourself as an expert and if you skip one or try to move too fast you end up backtracking and this creates a lot of frustration, time and a big dent in your pocketbook. I take things that seem impossible and difficult and present them in very understandable and doable steps.

Wendi McNeill has created an extremely effective and foolproof blueprint for anyone who wants to Get Found Now and be seen as the **Expert** in their field.

matter so you become the 'go to' expert and buyers will seek you out instead of you pounding down doors.

The Get Found Now fixed-term four month membership is intended for beginning public speakers, re-entry speakers, authors and coaches.

The Get Found Now fixed-term membership is a step by step learning program to help beginners position themselves as an expert so they can Get Found Now and create a full speaking schedule and lucrative business.

The problem I see with many beginners is although they have a dream and the passion, they lack the "know-how" in getting off the ground and in positioning themselves correctly the first time. They need simple and easy to understand steps to guide them in the right direction and this is exactly what this fixed-term four month membership will provide for you.

You don't have to be a top dog executive to start your own speaking business because speakers come from all walks of life from moms, authors, teachers, doctors, students, coaches, mechanics, farmers, to upper management and they all come from different lifestyles and different income levels. You don't need a PhD, MBA, certifications and years of traditional education to speak...all you need is the passion, dedication and a clear solution to your target audiences' most pressing challenge.

Most public speaking programs and workshops teach you how to present, how to write an effective speech or how to conquer your fear of speaking, this workshop does **none** of these. This learning program is specifically intended to take you from the ground to positioning yourself as an expert so you can start securing speaking engagements, build your credibility, gain exposure and build multiple streams of income.

We all know you can't walk into the speaking arena one day and have your first booking the next, it doesn't work that way and if it did...what a wonderful world this would be! Just like any other business you have to do some leg work, you have to prepare, learn and create and if done properly and in the right steps will have optimal results.

Below is an overview of the fixed-term membership training

- 4 monthly step by step lessons along with an action plan for each lesson. Each lesson will consist of 30-50 pages in length including the action plan. The training lessons are not full of hype but pure content intended to take you from ground level to positioning yourself and getting found so you can have that successful and lucrative speaking business you have always dreamed about.

Here's what you will learn during your fixed-term membership

Month 1 – Determining your niche, market and target audience

The #1 secret in building a successful and lucrative speaking business is by truly determining your niche (many think they know their niche, but this is where the problem is and why so many speakers fail to grow & become successful. This area will determine if you will make it or break it in the speaking business. Determine your target audience, this will not be a general audience but one that is very targeted and one you are meant to serve, one that needs the solutions/s you can provide) Determining your market and audience can be a make or break decision for you so its important to really research and take your time.

Month 2 – Create a brand for your speaking business, marketing material & topics for your presentation

Always be YOU, this is what will separate you from the pack. You want something that will stick in the minds of the buyer and potential clients & do dare to be different! You want to be known as the 'Go To' person in your field. **Creating topics and your content** around the solution, your expertise and experience in life and business. **Creating Marketing material** (the basics to get started)

Month 3 – Create a strong online presence, marketing strategies, techniques for building a strong platform and we will also discuss the advantages of using social media

A website that is designed to meet the needs of your target audience and one that includes all the necessary ingredients for online success as a speaker (this is a requirement because about 95% + planners are going online to find their speakers and you need to make sure you are easily found) You will also learn how to make your website work for you and not against you, how to use it to build your mailing list and profit instead of only using it for an online brochure. **Set up specific marketing strategies and building a strong platform.** This will be the most important part to your business growth because if you don't market they won't find you and if you don't build a strong platform your talk will mean nothing. What is a platform? A platform is a solid foundation in which you stand to showcase your expertise; it is where you show that you do indeed "Walk your

Talk” We also discuss the importance of using social media today and how it can increase your exposure, credibility and build relationships. I will also touch on the top social media sites and how to use them, what to do and what not to do.

Month 4 – Creating Products, Working with Meeting Planners, Follow up Care and Tips on Finding Speaking Engagements

You will also learn how you can continue to easily create a product line. There is a reason we do this and suggest it before heavily marketing yourself as a speaker because it gives you instant credibility and you are seen as an expert in your field. If you want more time to live the life you want and more time for creativity in your business you need to automate and systematize your business. You will also learn the importance of follow up care and building relationships (you have heard it a million times...its all about relationships)

No one can guarantee the success and end result of each individual student, take for instance a student wants it but does not follow through with the steps provided in the program, doesn't take action or implement the things they learn into their business and just waits for things to land on their lap or skips vital steps then this won't work therefore no success.
